RELEASED

Dear **Dr. Cornelio**:

We would like to respectfully raise a concern regarding the release of stipends.

For School Year (SY) 2024–2025, some of the Davao Region Universities implemented a transition in its academic calendar to revert the start of classes to July. During this period, there were instances when part of a month (July 2024) fell under the summer term, while the remaining part was already within the first semester. To avoid overlapping stipend releases, we allocated the stipend for the first semester from August 2024 to December 2024, ensuring that scholars still received the full five (5) months of stipend for the semester.

For SY 2025–2026, classes officially began in July. Since the July stipend had already been released for those who attended the summer term (covering the two-month PTP stipend), we proceeded with the first semester stipend release from August 2025 to December 2025, again ensuring completion of the five (5) months' stipends for the first semester.

At present, we seek clarification regarding the second semester, which is scheduled to end on April 12, 2026. May we ask if the stipend for May 2026 will still be granted, considering that the scholars will have already graduated by April 2026?

We would greatly appreciate your guidance on this matter.

Thank you very much.
