Memorandum No. STSD-
Series of 2021

FOR : DOST Regional Directors

FROM : 
DR. JOSETTE T. BIYO
Director, SEI

SUBJECT : **Conduct of Science and Technology Learning Assistance Program Activities in 2021**

DATE : 2 March 2021

The Science and Technology Learning Assistance Program (STLAP) is a measure established by the DOST-SEI to ensure that the ongoing DOST scholars will not only flourish academically but will grow holistically as individuals. The following are the objectives of the program:

- Help the scholars assess and enhance their intellectual potentials and psycho-social skills;
- Equip the scholars with coping skills needed in their college study; and
- Inculcate to the scholars the time-honored values such as social responsibility, leadership, academic excellence, and personal integrity, among others.

While the current health condition in the country poses challenges in the continued delivery of service to our scholars, everyone is encouraged to prioritize everyone's health and safety and conduct STLAP activities virtually. As such, due to the nature of the Practical Training Program, this STLAP activity will be discontinued this year.

The Exit Conference for Graduating DOST-SEI Scholars which is a staple STLAP activity for the past three years will be conducted as a nationwide event on March 26, 2021. Further details regarding this will be sent in a separate communication.

While proposals for the usual STLAP activities such as the InTouch with Excellence, Job Hunting Seminar, and others are expected, everyone is challenged to create and propose projects on Gender and Development (GAD) such as Gender Sensitivity Training, Webinars on Use of Gender Fair Language, Anti-Sexual Harassment, Anti-Violence Against Women and Children, among others.

Thank you.
